

SCREW CONVEYORS FOR FOOD AND INDUSTRIAL FIELDS

The screw conveyors, baggers, weighers realized by B.S.P. Engineering are made of galvanised steel, painted and stainless steel.

Tubular or other different configuration.

Iron, Hardox or stainless steel spirals according to the type of product which must be transported.

Main supports with bearings and stuffing box of first quality.

Intermediate bronze bearings.

Direct transmission or by pinions and chains.

Each screw conveyor will be dimensioned from B.S.P. Engineering S.r.l. technical department according to the physical characteristics of the product.
