

# HYDROBOX PLANETARY EXTRACTORS

**Extractors for silos with flat bottom and diameter from 2 to 9 meters**

Suitable for silos with small-medium diameter and small-medium capacity

**Used the food and chemical industry**

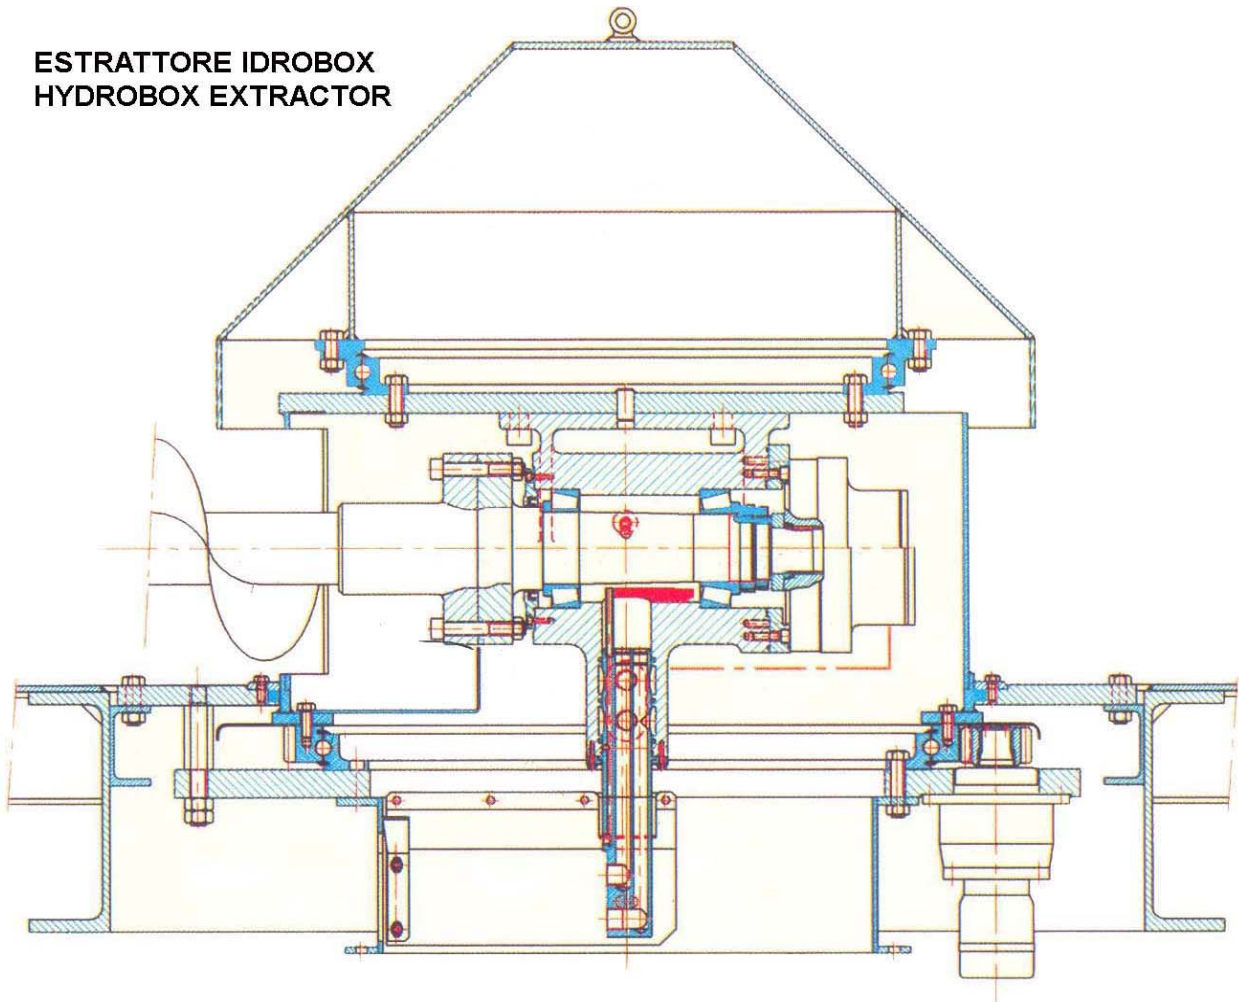

Hydraulic drives. The hydraulic gearbox can work with one or more extractors

**These extractors own hydraulic regulator of capacity and in case of different type of products the regulator allows to obtain the desired mixtures**

“First in first out” extraction system

**Extraction capacity up to 120 m<sup>3</sup>/hour**

**ESTRATTORE IDROBOX  
HYDROBOX EXTRACTOR**

Each Hydrobox extractor is dimensioned from B.S.P. Engineering technical department according to the physical characteristics of the product, to the silo dimensions and to the requested capacity.

**B.S.P. ENGINEERING S.r.l.**
